What Career are you in, and what sort of things does this entail?

IT

What inspired you to go into your chosen career?

To be honest just fell into it after an opportunity arose in an area I had an interest in.

What advice would you give to anyone interested in working in your career area?

Be a sponge, always be willing to listen to people and put the effort in to want to learn all the time.
What you put in you will get out.

What do you know now, that you wish you'd known when you were leaving Malbank?

What you study may not be where you end up, so always want to learn new things, and if you don't get the results your after at school/6th form don't panic.
