

Katie Heirene (Astbury), 2005

What Career are you in, and what sort of things does this entail?

Previously marketing and events and then moved into education to support schools with their careers education events and activities.

What inspired you to go into your chosen career?

I absolutely loved business studies with Miss Bartrop and always wanted to do something related to marketing or sales, if not running my own business!

What advice would you give to anyone interested in working in your career area?

I would just remember that your careers is a journey, I never expected to be working in education but one opportunity and experience led to another and circumstances might change - but the world is your oyster if you are prepared to work hard!

What do you know now, that you wish you'd known when you were leaving Malbank?

That it's not the end of the world if you don't pass something!
