

Malbank Biology Learning Journey

In Science at Malbank we will develop competent and skilled scientists; giving students opportunities to question, test, conclude and evaluate, with accuracy and reliability, so that they can develop enquiring minds and apply knowledge and skills learned to solve real world problems.

Understanding and Applying Scientific Skills HAND

- 1 Hypothesis
- Selecting and using equipment
- Recording results
- Planning investigations
- Drawing graphs
- Analysis of graphs
- Use and manipulation of units
- Using and Interpreting data
- Drawing conclusions, evaluation & limitations
- Safety
